

Entrepreneur Resources

June 2020

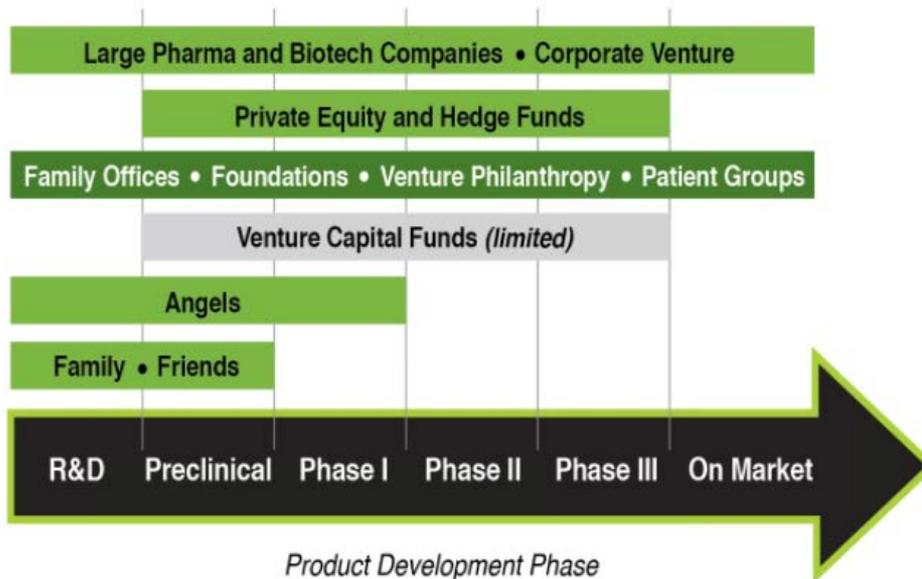

- Each month we'll highlight resources, founder conversations and hot topics to help you move your ideas forward.
- If you have resources that you'd like to share, please reach out to your licensing associate or EIR to have them included in the next update.
- **I have added recordings of virtual events from the previous month in case you missed them!**

Articles and Tools

- [Pear VC](#) has an amazing set of recorded lectures on topics across business models and targeted to first time entrepreneurs including non-dilutive funding and lessons for student founders
- [Entrepreneur's Handbook](#) for Life Scientists is well written and covers all major topics of start-up life.
- [Virtual Accelerator Batches](#)—what will they look like?
- YC is sponsoring Female Founder [Fridays](#). Tune in for tips from those who are making it happen
- [HR basics](#)—what you need and when—great summary article from Y Combinator
 - Free HR Startup Handbook [Template](#)
 - Easy [Onboarding](#) plan. They push Trello and Smartsheet will do the same
- Preclinical [ADME](#) explained
- [Funding 101](#): the main archetypes in funding and how to choose

Hot Topic: The cost of fundraising for follow-on rounds for life science companies

Time/opportunity cost is 12-18 months for your CEO + CSO/CTO if you're making the "road trip"

Campaign Component	Typical Cost
Creating and maintaining your branding, messaging, marketing collateral and web presence for a year	\$25,000 - \$30,000
One conference per quarter, travel and expenses	\$12,000 - \$20,000
1-2 week road trip per quarter, two people	\$10,000 - \$15,000
Global target list of investors and campaign infrastructure	\$10,000 - \$12,000
Legal and professional fees	\$10,000 - \$20,000
TOTAL	\$67,000 - \$97,000

ALEXANDRIA

LAVA
LOS ANGELES VENTURE ASSOCIATION

WHY APPLY?

The First Look SoCal Innovation Showcase is an annual conference celebrating the best early stage teams commercializing tech and life science breakthroughs from SoCal's top research institutions.

The event will provide unparalleled opportunities for startup teams to connect with top-tier investors, successful series entrepreneurs, and industry leaders.

UPDATE RELATED TO COVID-19 POSTPONEMENT

To assist startup teams impacted by the postponement of this event to September, Alexandria Venture Investments and the Los Angeles Venture Association are offering virtual strategic feedback as well as select investor introductions to interested startups that apply.

Teams must apply to participate in the showcase in order to receive the assistance.

KEY DATES & DEADLINES

Applications must be submitted by Friday July 31 (deadline 11:59 PM, Pacific)

Final lineup announced Friday August 14

Showcase on Tuesday September 15

Virtual Events

- New reality in Biotech panel
- This was a panel featuring leaders in life science companies and how business is changing today and in the future

The New Reality in Biotech

4 days ago | More

 Egnyte **BUSINESS** [+ Follow](#)

 1  0  0  0

Everyone in biopharma has had to deal with a new reality after the pandemic hit. Trial plans have been derailed, communications with staff have been disrupted, old schedules no longer apply. But through it all, biotech execs are getting things done. We'll talk to a panel involving some of the most experienced vets in the business as they discuss managing a drug development operation in a radically different world.

Comply With GxP and Part 11 Regulations

Teams that develop medicines, food and devices involved with human health, are expected to follow GxP, including compliance with FDA 21 CFR Part 11 or Annex 11. Egnyte makes it easy to manage documents and data and follow these requirements through modern software, a validation package, and ongoing support to maintain compliance. Our life sciences cloud solutions integrate auditing, reporting, access controls, and robust governance to ensure that you are audit ready. Egnyte enables you to meet these regulations rapidly, inexpensively, and easily.

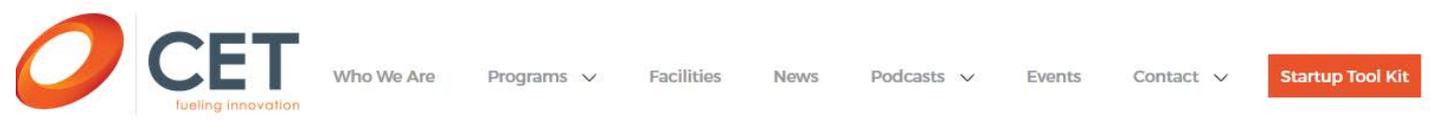

Secure Sensitive Data Across Repositories

Sensitive data is being generated and stored in numerous repositories in your organization - file servers and SharePoint, for example - and accessed by many external parties. This creates tremendous risk for you as data-privacy laws emerge (e.g. GDPR, CCPA, etc.). The Egnyte platform's data protection and security capabilities for life science organizations help you manage those risks by monitoring access in real time, tracking sensitive data using machine learning, and mitigating security threats across numerous platforms and repositories.

Make compliance and data sharing simple: [Egnyte](#)
